MYSQL-SQLSEVER

Experiences

- JOBINTECH UIR - Full stack JAVA/ANGULAR**
March 2024 - Present
Mastered Full Stack development in 4-month Java-SpringBoot/Angular program. Proficient in Java, SpringBoot for backend, and Angular for frontend. Skilled in designing, developing, and deploying dynamic web applications.
- Internship at A.R.E.F**
june 2023
Developed a desktop application for managing incoming/outgoing mail within the office of order (using VB.NET) during an internship at the Regional Academy of Education and Training of Tangier Tetouan Al Hoceima.
- Final Project**
2022 - 2023
I developed a Java-based mobile app for dairy product distribution management, streamlining inventory, orders, and delivery logistics with MySQL backend and XML frontend for efficient operations.
